11	50-520SS	3/4" Tee, SST	1

SDI
SPRAYING DEVICES INC.

Note: If your hose reel installation requires drilling into the tank, the tank interior **MUST** be vacuumed and flushed prior to operation. Failure to do so will cause clogging of the system's filters and screens.

Mounting Instructions:

1. Place the Hose Reel in the desired location on the tank and mark the hole locations.
2. Line up the holes in the Hose Reel base with the holes in the tank and bolt into place.
3. Install additional plumbing and connect hose to Hose Reel
4. Install the Gun Holder in a convenient location.
